JOHN MICHAEL BOUDREAUX

FRONT END DEVELOPER  
JOHNMBODREAUX.COM

## OBJECTIVE

I am a UI and UX developer who is looking for an opportunity in the information technology field that offers a challenging work environment, encourages growth, and provides the opportunity for career advancement. I am currently focusing on learning Angular 5, Ruby and the Cucumber testing framework. Please check out my portfolio site: [johnmboudreaux.com](http://johnmboudreaux.com)

## SKILLS

HTML5, JS Templates, JSX

CSS3, SCSS

jQuery, React, Redux, Node.js, Express, SQL, Webpack,

Workflows  
Git, Test Driven Development, git-flow, agile

Bootstrap 4

## EXPERIENCE

### FREELANCE • MARCH 2018 - PRESENT

#### DBL VENTURES • RENTMINDR • APRIL 2018

Assisted a small property management startup in building client portal for reporting issues, payment setup and invoice payments. Tech used: React, Redux, Router, CSS3, SCSS

#### ACHEE REALTY • MARCH 2018 - PRESENT

Assisted a small brokerage firm in conceptualizing design and layout ideas and constructed them. Tech used: React, React-Strap, Redux, JQuery, Node, Node-Mailer, Express, Router, HTML5 and CSS3

#### ROUNDTABLE DIGITAL • AUGUST 2018 - PRESENT

Interning for a small e-commerce startup building webpages for clients using Wordpress and Magento.

#### INDUSTRIAL AND MARINE VALVE • AUGUST 2018 - PRESENT

Constructed a small react app for a marine valve startup out of Louisiana. .

### PURCHASING AGENT • RK MECHANICAL • APRIL 2011 - NOV 2016

Identified preferred vendors and negotiated annual partnerships. Ensured payment of hundreds of invoices monthly. Supported a large employee base through procuring 8-10 million annually on goods and services.

### GEEK SQUAD • BEST BUY • MARCH 2001 - APRIL 2011

Worked as a tech support and manager in various stores nationwide. Assisted clients with hardware and software issues, providing face-to-face diagnostic help and recommendations. Ran day-to-day operations while ensuring top-quality service and support.

## EDUCATION

### FRONT END DEVELOPMENT • TURING SCHOOL OF SOFTWARE AND DESIGN • JANUARY 2018

Attended 7-month, 1500-hour, front end developer course covering: Fundamental web technologies, web development with JavaScript, React, Redux, HTML5 and CSS3, professional client-side development, and building desktop and mobile applications with web technologies.

## PROJECTS & TECHNOLOGIES

At Turing I enrolled in coursework that involved building JS and React applications, including a weather application using jQuery and API calls to weatherUnderground, an Object-Oriented JS game-engine, a mobile and desktop friendly React-Redux movie database application, and a capstone project with a Node.js and express back-end, utilizing NPM scripts, Webpack, React-Redux, and unit testing with Mocha, Chia, Jest and Enzyme.
